DETAILED ACTION

Status of the Claims

1. This action is in response to the application filed on September 17, 2001. Claims 1-41 are pending.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:

- I. Claims 1-14 disclose searching one or more dimensions of an error space proximate to for determining an alternate portfolio;
- II. Claims 15-23 disclose generate amore diversified portfolio without violating a maximum exposure constraint;
- III. Claims 24-26 and 30-31 disclose measuring a cost associated with achieving diversity by comparing one or more characteristics of the initial portfolio and the one or more alternate portfolio;
- IV. Claims 27-29 disclose the cost is measured in terms of one or more expected return, risk, and utility;
- V. Claims 32-33 disclose selecting the most diverse portfolio;
- VI. Claims 34-41 disclose a predetermined diversity level relative to the initial efficient portfolio.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Art Unit: 3694

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
